Intern BI Developer

Description

We are just launching a 3 months paid **IT Internship Program** which will give you the opportunity to work within Ryanair Teams. The work that you do, will be seen by the millions of customers across Europe! By showing entrepreneurial spirit, you will be rewarded with an opportunity to **develop a career** (possibility of getting a civil contract after) for one of the most well-known brands across Europe!

We are looking for IT talents who would like to spend the summer with the teams of great team that will help them to grow. We want inspirational IT students who have a story to tell and who have strong outside interests. Cultural fit at Ryanair is just as important as academics.

We are looking for a Intern BI Developer to work in a multi-disciplined team, working alongside Developers, Data Scientists and DBAs. The role will allow you to develop and implement wide ranging solutions for the entire business.

Additional Information:

Our tech stack includes (but isn't limited to):

- Azure (e.g. Data Factory, Synapse, Managed Instance, Storage Accounts, DevOps, Logic Apps, DataBricks, Azure Functions), MS SQL Server 2017, Power-BI, SSRS
- Our data sources include among others S3, Athena, Oracle, Elastic, MongoDB, BigQuery, Rest API's

Requirements

- Student in a field of Computer Science, information technology or a related field.
- Fluent English (min. B2)
- Availability of working 8 hours daily for 3 months
- Eager to learn and develop yourself
- Able to work and play well with others

Application process:

Everyone we hire at Ryanair Labs Wroclaw needs to show the skills and behaviors that have helped us to achieve our growth over the last years and we expect candidates to demonstrate a hardworking and innovative spirit during the interview process.

- **Application form**

Please make sure that you pay attention to the application and ensure that all information supplied is accurate. Please send us CV (in English) plus short introduction of yourself and why you want to join the Summer IT Internship Program.
