Sustainability Data Analyst / Data Architect

Description

This role will help us to achieve our sustainability goals through intelligent data analysis and architecture. Our vision is to create a highly efficient, automated data sustainability ecosystem to analyze, report, manage and control all aspects of our sustainability strategy.

YOUR RESPONSIBILITIES:

- Create and steer the implementation of an integrative sustainability data-ecosystem
- Development and implementation of data architectures to support our sustainability initiatives
- Developing and maintaining data pipelines to collect and analyze sustainability data
- Creating dashboards and reports to visualize data and support strategic decisions
- Conducting data analyses to identify trends and derive recommendations for action
- Collaborating with internal stakeholders to improve data collection and quality
- Support in the preparation of ESG reports (CSRD, etc.), ESG ratings and sustainability assessments

YOUR PROFILE:

- Education: Completed studies in field of Computer Science, Engineering, Economics, Environmental Sciences, Statistics or similar
- Experience: 2-3 years of professional experience as a Data Analyst or Data Architect, ideally in the field of sustainability
- Required Skills: Sound knowledge of database technologies, ETL processes and data modeling, Experience with BI tools such as Power BI , programming skills in SQL, Visual Basic, Excel, Access, experience with SAP / Snowflake, knowledge of sustainability issues
- Languages: Very good spoken and written English (C1+ Level), German is an advantage
- Competences: Strong analytical, presentation and communication skills

How the process will look like

Your teammates will gather all requirements within our organization. Then, once priority has been discussed, you will decide as a team on the best solutions and architecture to meet these needs. In continuous increments and continuous communication between the team and stakeholders, you're part of making data play an even more important (and understood) part withing Brand New Day.
