

## Data Engineer – Contract Inside IR35

### Description

Burendo is a Leeds head quartered delivery and transformation consultancy, specialising in supporting both large and SME organisations to improve their Agile adoption and delivery processes. Making transformation and delivery possible by inspiring people and organisations is our mission. Our clients span multiple industries and countries, and our consultants and coaches use a blend of tools and techniques, obtained through practical experience, to help teams and improve the capabilities and outcomes of our clients.

As we grow we're looking to hire Data Engineers to work with us on a contract basis (inside IR35). This role is remote but may require occasional travel to Morley Head Office or operational locations.

### Requirements

#### Essential behaviours

These are the most important things to us, we can teach skills, but behaviours are much harder to teach.

- A passion for engineering and a desire to keep learning
- A focus on writing clear, concise code that is easy to maintain
- An ability to be pragmatic when required and avoid unnecessary "gold-plating"
- An understanding that quality is everyone's responsibility and a strong desire to test your own code
- Comfortable working with others in pairing or mobbing scenarios
- A good communicator who shares our values of openness and respect
- A desire to build up and see others succeed, rather than wanting to be the Hero

#### Essential Skills and experience

- Python
- Spark, Spark SQL, SQL
- Databricks

#### Desirable skills

These are the little bit extra, cherry-on-top skills that will help you stand out. Still give us a shout if you haven't currently got these skills though!

- Experience working in a technology or consulting company
- Experience working in a logistics company

#### Benefits

- Competitive rate – Contract Inside IR35
- Remote Working
- Supportive consultancy environment

### **How the process will look like**

Your teammates will gather all requirements within our organization. Then, once priority has been discussed, you will decide as a team on the best solutions and architecture to meet these needs. In continuous increments and continuous communication between the team and stakeholders, you're part of making data play an even more important (and understood) part withing Brand New Day.

### **Job Benefits**

USD 90K – 155K \*
