

Data Lead

Description

We are one of Europe's leading suppliers of clinical laboratory testing and medical diagnostic imaging services to private and public healthcare providers, local governments, insurance companies, pharmaceutical companies and the general public. We operate laboratory and medical diagnostic imaging facilities in 14 countries: Czech Republic, Denmark, Finland, France, Italy, Norway, Peru, Portugal, Slovakia, Spain, Sweden, Switzerland, UAE, and the United Kingdom. Our network of facilities provides us with one of the broadest geographic footprints of any clinical laboratory and medical diagnostic services provider in Europe.

We are seeking a dedicated and experienced Data Lead to join our dynamic team. As a Data Lead, you will play a crucial role in managing and optimizing our data assets to support our business objectives.

If you are passionate about leveraging data to drive business insights and have a desire to contribute to the success of a leading healthcare organization, we would love to hear from you.

Responsibilities

- Defining Data Quality Requirements and operational processes
- Developing Data Cleansing Plan and Data Cleansing Approach including monitoring of data cleanse status
- Assessing current state data quality processes and procedures and overall data quality

Requirements

- Bachelor's or Master's degree in a relevant field such as Computer Science, Data Science, Information Management or similar
- Experience of managing data environments in multi functional ERP programme
- Experience of establishing, improving and monitoring data quality
- Experience of establishing and monitoring data quality during project lifecycle
- Good communication skills for collaborating with data owners in the business
- Proficient written and verbal communication skills in English
- Experience working in the healthcare industry is a plus

How the process will look like

Your teammates will gather all requirements within our organization. Then, once priority has been discussed, you will decide as a team on the best solutions and architecture to meet these needs. In continuous increments and continuous communication between the team and stakeholders, you're part of making data play an even more important (and understood) part withing Brand New Day.
