

Travel & Expense Business Intelligence Analyst

Description

Do you consider yourself a pioneer? Do you get excited about the future of data analytics, AI, and technology?

PredictX

A SaaS company designed to analyse, predict and automate critical decision making for businesses. With our integrative AI technology, companies can make tactical decisions to improve their strategies, policies and forecasts.

At PredictX, we take pride in creating a work environment that promotes invention, independence and transparency. Our social and 'open door' approach allows everyone to show initiative, be creative and collaborate across the business. Our team consists of valuable and knowledgeable industry experts who seek to push the boundaries of technology, data analytics and AI.

PredictX wants inventors. We are looking for people with ideas and solutions to improve the way we do things. If you are a problem-solver, creator, and designer looking to expand your knowledge and responsibilities, talk to us!

Our Work Environment:

Innovation on Overdrive: Buckle up for a ride of perpetual evolution! We thrive on adopting cutting-edge frameworks and tech, fostering an environment where innovation is the heartbeat of our operations.

AI-Driven Ingenuity: We're not just using AI—we're immersed in it! From Co-pilot-assisted programming to automating complex tasks, our deep integration of AI technology sets us apart.

Collaborative Ingenuity: Say goodbye to closed doors. Our 'open door' ethos fuels a collaborative spirit where transparency and independence reign supreme. Your initiative and creativity matter here.

Your Role as an Inventor: We're on the hunt for "Inventors"—problem solvers, creators, and boundary-pushers eager to expand their horizons in a landscape shaped by ever-evolving technology.

The Role We are looking for an accomplished Business Intelligence Analyst with experience working in the travel and expense industry to join our team in London.

This is a dedicated client focused role working with one of our key clients in the banking sector within the Travel & Expense team. Experience in T&E analytics is required so that you can ensure that they harvest value from the analysis produced by PredictX.

In this role, you will be responsible for responding to our client's employee support requests, providing regular training to platform users, managing report distributions, and handling ad hoc report requests for senior leaders.

Responsibilities

- Responding to our client's employee support requests
- Providing regular training to platform users
- Roll out of new features/modules to users
- Adding, removing, updating user access and managing coverage
- Data validation and data provider management
- Manage report distributions
- Ad Hoc report requests for senior leaders
- Feedback of new analysis/features
- Access to our client's network with a dedicated client email address
- Internal corporate training in conjunction with the client
