

IT Analytics & Data Specialist, Nestlé Nordics

Description

Join Nestlé Nordics – We are looking for the Power of YOU!

Ready for an exciting opportunity with Nestlé Nordics? We are now seeking an exceptional IT Analytics & Data Specialist, who is passionate about working with technology, data analysis, and visualization, and who wants to make a real impact. At Nestlé Nordics, we prioritize a supportive and inclusive work environment that encourages open collaboration, and we believe that by embracing your unique skills and expertise, you will play a vital role in our collective success. If this sounds like the right next step for you, then come be our new colleague in Copenhagen!

Working at Nestlé

As the largest food and beverage company in the world, Nestlé offers a diverse range of products with a primary focus on nutrition, health, and wellness. Nestlé Nordics is not just a workplace; it's a community where your uniqueness matters. We celebrate diversity and value every aspect of you, creating a culture that encourages growth, celebrates differences, and offers endless opportunities. We believe that by embracing your uniqueness, you contribute to our collective success.

Your job

As our new Nordic IT Analytics & Data Specialist, you will play a crucial role in our team, contributing to our analytical digital journey. You will join our Nordic IT department, which consists of 21 employees and supports all Nestlé companies in the Nordic region (Denmark, Sweden, Norway, and Finland). Your main tasks will involve analyzing, designing, implementing, and deploying custom business dashboards.

In this position, key responsibilities will include:

- Working with stakeholders to identify and understand their business objectives and guiding the design of corresponding dashboards/solutions.
- Collecting and processing data from various sources; cleaning and ensuring accuracy and integrity of data; reviewing data for inconsistencies or anomalies.
- Troubleshooting and resolving data engineering issues and optimizing performance.
- Maintaining dashboards and databases to ensure data integrity; identifying reporting issues/gaps and driving timely resolutions; streamlining data collection processes.
- Collaborating with the regional and global product management groups to understand current capabilities.

May 17, 2024

This role requires a comprehensive understanding of IT operations. You should be able to coordinate information flow and follow processes and guidelines effectively. Additionally, you should possess the ability to educate business partners about IT Analytics & Data in a simple and understandable manner, as this will be a daily challenge.

We are looking for the Power of YOU

If you are ready to challenge the status quo, push boundaries, and embark on a transformative career journey, Nestlé Nordics is the place for you. We seek individuals who are thirsty for knowledge, eager to learn, and passionate about making a positive impact. We offer a world of opportunities where you can explore new horizons and shape your own path.

Qualifications

To excel in this role, we envision that you hold an Academic Degree in Computer Science or a comparable field, which provides you with a solid foundation in Analytics & Data. Additionally, we anticipate that you have relevant experience in the IT field and a genuine passion for working with technology.

In addition to your technical expertise, we value the following people skills:

- Strong desire for continuous learning and growth, both on a personal professional level.
- Experienced user of Data Analytics tools (Power Bi, SQL, or similar) and Microsoft Office (incl. strong knowledge of Excel).
- Excellent communication and collaboration skills, enabling you to thrive in a team-oriented environment.
- Genuine enthusiasm for making a difference and contributing to the success of Nestlé Nordics.

Join Nestlé Nordics and Make Your Mark

At Nestlé Nordics, your individuality is our greatest asset. We believe in the power of you and the unique contributions we together bring to our organization. If you are ready to be part of a supportive and inspiring team that values your true self, then seize this opportunity and apply today. Together, we will unleash your potential and redefine what is possible.

Follow us on [LinkedIn](#) and [Nestlé Denmark](#), if you would like to be notified of new Nestlé opportunities and our values. Follow us on [Instagram](#), if you want to know more about our company culture and see what it is like to work at Nestlé Nordics.

The selection process & Contact

We look forward to hearing from you, so please do not hesitate to take this opportunity to submit your application and CV as soon as possible, and by June 5, 2024, at the latest. If you have any questions regarding the job, please contact Information Technology Manager, [Peter Brandt on LinkedIn](#). Please note that we will only accept applications that are sent to us via our Careers site.

Preferred start date: September 1, 2024

Note: Nestlé Nordics is an equal opportunity employer. We embrace diversity and inclusion and encourage individuals from all backgrounds to apply.

How the process will look like

Your teammates will gather all requirements within our organization. Then, once priority has been discussed, you will decide as a team on the best solutions and architecture to meet these needs. In continuous increments and continuous communication between the team and stakeholders, you're part of making data play an even more important (and understood) part withing Brand New Day.
