

Regulatory Data Analyst

Description

Regulatory Data Entry Associate (full-time/part-time)

Location: Valencia, Spain

Reports to: Manager of Regulatory Affairs, Maria Deisy Hall

We are Datamaran: a fast-paced, energetic and high-growth technology company.

Datamaran is the market leader in external risk management. Trusted by blue-chip companies and global partners, it is the only software in the world that supports a data-driven business process for monitoring external risks and opportunities. In-house – at any time.

Datamaran enables a fully automated and digitized approach to monitoring emerging and ESG issues, tailored to your business and value chain. It offers real-time analytics on strategic, regulatory, and reputational risks to strengthen decision-making – with the power of AI and Big Data.

We recognise that people of different backgrounds widen our perspective, so we're committed to diversity, equality and inclusion in everything we do. Datamaran is proud to be an equal opportunity employer as such all applications received will be considered without regard to race, colour, religion, gender, gender identity or expression, sexual orientation, national origin, genetics, disability, or age.

Our eclectic team of talented individuals represent over 25 nationalities, with 50% of our leaders being female. Datamaran is a fully digital and distributed company, already with over 100 members of staff working across the globe, with offices in London, Valencia, New York and now Leeuwarden in the Netherlands.

Such a mix makes Datamaran a unique, collaborative and ambitious workplace.
